

# Download Oil And Gas Decommissioning Law Policy And Comparative Practice

First presented in 1949, the Annual Oil and Gas Law Conference is America's, and possibly the world's, oldest continuously presented CLE program. Consideration of whether to completely remove an oil and gas production platform from the seafloor or to leave the submerged jacket as a reef is an imminent decision for California, as a number of offshore platforms in both state and federal waters are in the early stages of decommissioning. Acclaimed by respected professional directories as a leading figure in the energy field, Steven is a valued counsel to clients seeking to develop, finance, and execute acquisitions and divestitures of US domestic and emerging markets oil & gas projects, both onshore and offshore. (1) exploration, (2) well development, (3) production, and (4) site abandonment. Exploration involves the search for rock formations associated with oil or natural gas deposits, and involves geophysical prospecting and/or exploratory drilling. Well development occurs after exploration has located an economically recoverable field, and involves the construction of one or more wells from the ...
