Turnstone Biologics is a privately-held immuno-oncology company based in Ottawa, Ontario. Since 2015, we have raised \$50 million in venture capital financing, brought in more than \$100 million in non-dilutive funding, and have received numerous biotechnology industry awards, including being named a 2017 Fierce 15 company.

1. Introduction Therapeutic monoclonal antibodies and fusion therapeutic proteins have long half-lives in vivo and/or are given at high therapeutic doses in nonclinical safety studies (Patton et al., 2005), as well as in clinical situations (Koren et al., 2002, Baert et al., 2003), resulting in high concentrations of biotherapeutic drug in the blood for longer durations than are observed with ...

Output Style List. RefWorks offers hundreds of output styles including APA, MLA, Chicago, Vancouver and Turabian, and we are continually adding more.

Reversal of paclitaxel or vinblastine resistances by novel inhibitors of P-glycoprotein using metabolic viability assays. A2780ADR cells were treated in the presence of compounds 29, 34, 45 or ...
