

Download Philips Radiography User Manual

Medical supplies and sensors are critical to acquiring measurements your patients and care teams rely on. By standardizing on and partnering with Philips for your supplies needs, you can unlock the full value of your clinical systems, manage total cost of ownership and support your patient-centered healthcare goals. Find your radiography system easily amongst the 295 products from the leading brands (Toshiba, Konica, MS Westfalia, ...) on MedicalExpo, the medical equipment specialist for your professional purchases. To implement the ALARA principle, a number of international work groups introduced the concept of image quality classes (Table 1, Table 2) , , . Three levels of image quality (high, medium, and low) and, accordingly, three dose levels (corresponding to speed classes 400, 800, and 1600) were suggested, dependent on the demands of the diagnostic question. An exceptional tool for improved radiography workflow and efficiency, made for and with the TECHNOLOGIST in mind. â€¢ Designed for intuitive use
