Lockwood, a wealthy man from England, rents a house from an eccentric gentleman named Heathcliff, who is the tortured master of Wuthering Heights. Through Lockwood and the housekeeper, Nelly, the story of Heathcliff's adoption, upbringing, revenge, and love for Catherine is told. Wuthering Heights is Emily Brontë's only novel. It was first published in 1847 under the pseudonym Ellis Bell, and a posthumous second edition was edited by her sister Charlotte. The name of the novel comes from the Yorkshire manor on the moors on which the story centres (as an adjective, wuthering is a Yorkshire word referring to turbulent weather).
